**Re: Brooks II Solar Community Notification Letter**

Dear Neighbour,

My name is Dan Eaton, I led the development of Elemental Energy Inc's (Elemental Energy) Brooks Solar facility and I am leading the development for the proposed Brooks II Solar Project (the Project), which is located adjacent to our operating Brooks Solar project in the County of Newell.

I have prepared this letter and the enclosed Project Information Newsletter to (1) notify and provide you with information about the Project, and (2) invite you to be involved in the Project's public consultation process. The following pertinent information is included in the Project Information Newsletter:

- A map of the Project site and surrounding areas;
- The Project's expected development and construction timeline;
- Details on the community impact and benefits;
- Invitations to coordinate a personal meeting with our team and/or to attend our public open house on Tuesday, September 18<sup>th</sup> at the Brooks Solar facility from 4:00 pm to 8:00 pm.

The Alberta Utilities Commission Brochure: *Public Involvement in a Proposed Utility Development* is also enclosed to provide you with background on the public consultation process. More information on the Project can also be found on our website: <http://elementalenergy.ca/brooks-solar-ii/>

Throughout the development, construction and now operation of Brooks Solar we have been continually impressed by the positive support provided by the communities within the City of Brooks and County of Newell. We are extremely excited to propose the Brooks II Solar project, and we welcome your feedback at any time. If you would like to meet or talk prior to the open house event, please let us know. We will be happy to arrange a meeting to answer any questions.

If you have any questions please feel free to contact me.

Sincerely,

Daniel Eaton, P. Eng.

Director of Project Development, Elemental Energy Inc.
